Description

Gabriel Argy Rousseau Pate de verre sea thistle pendant C1921

Circular flat moulded pendant with relief floral decoration.

Signed G.A.R

There are 3 holes which are designed to take the neck cord and a tassel.

They would have originally been silk and have since perished over the years. This can easily be replaced in either silk or synthetic material.

One of the cord holes is slightly larger. This wouldn't be seen once a cord is attached but is mentioned for accuracy

The condition is very good there are minor chips to the back around two of the cord holes, this would have occurred at the time of manufacture when the holes were made.
